2.40 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

EXPIRED MEDICATIONS 2.40 (b) (2)

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

Several expired medication were located in the whelping kennel; Oxytocin Injection Exp 06/08, Acranbacterum Pyogens-Escherichia Coli-Pasturella-Multocida-Salmonella-Typhimurium Antibody Exp 9 June 08, Albion 01-08, Distemper Adenovirus Type 2 Parainfluenza-Parvovirus Vaccine Exp 01 may 2008. Expired medications may be contaminated, may not work as expected, and could harm the animals. All medications used on the animals must not be expired in order to protect the health of the animals. Licensee must ensure that all medications maintained for and used on the animals are not expired.

To be corrected immediately

3.1 (e)

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general.

Facilities and Operating Standards

(e) Storage. Supplies of food and bedding must be stored in a manner that protects the supplies from spoilage, contamination, and vermin infestation. The supplies must be stored off the floor and away from the walls, to allow cleaning underneath and around the supplies. Foods requiring refrigeration must be stored accordingly, and all food must be stored in a manner that prevents contamination and deterioration of its nutritive value. All open supplies of food and bedding must be kept in leakproof containers with tightly fitting lids to prevent contamination and spoilage. Only food and bedding that is currently being used may be kept in the animal areas. Substances that are toxic to the dogs or cats but are required for normal husbandry practices must not be stored in food storage and preparation areas, but may be stored in cabinets in the animal areas.

Inspection Report

A container that held a puppy food mixture housed in the whelping house did not have a lid on it. Open food supplies must be kept in leakproof containers with tightly fitting lids to prevent contamination and spoilage of the feed. The applicant must ensure that open supplies of food are stored in leakproof containers with tightly fitting lids at all times.

To be corrected by July 9, 2008
